SPECIFICATIONS

SOW for Plug for Sabin Lock

1. Design, build, and install a sealed bulkhead on the culvert leading from the Sabin Lock to the Davis Pumpwell. The intent of the bulkhead is to keep water from leaking from the lock into the dewatering well once the lock is rewatered. The bulkhead must be designed and signed by a registered Professional Engineer. A relief valve on the bulkhead will be required to relieve air pressure when the well is rewatered for removal of the bulkhead. The design must be submitted for review and acceptance by the Corps of Engineers prior to installation. A manufactured watertight door may be acceptable if the Contractor can show it will be effective. The Sabin Lock is currently dewatered and the area is accessible for a site visit. People will be working the dewatered well so appropriate factors of safety must be incorporated into the design. Reference drawings are available for review at the Soo Area Office. The bulkheads must be installed NLT 15 Jan 05.

2. Remove the plug next summer at the option of the Government. The plug will be underwater and located in the dewatering culvert of the lock.

SCHEDULE OF INSURANCE:

The Contractor shall procure and maintain, during the entire period of performance under this contract, the following minimum insurance coverage.

(b) Automotive Liability: \$200,000 per person
 \$500,000 per occurrence

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:
